## EDUCATION

VIPS(Vivekananda Institute of Professional Studies)

08 2022 – 08 2024

MCA(Master in Computer Application - **CGPA - 9.1**)

New Delhi, Delhi

Keshav Mahavidyalaya

08 2016 – 08 2019

B.SC Math honours - **Percentage - 83%**

New Delhi, Delhi

## COURSEWORK / SKILLS

- HTML, CSS & Javascript
- Database Management System(DBMS)
- Bootstrap & Tailwind
- C++
- Python
- React
- OOPS Concept

## PROJECTS

**Random Password Generator** 🔗 | HTML, CSS, Javascript, React

01 2024

- Developed a dynamic and interactive random password generator web application using HTML, CSS, JavaScript, and React. The application generates **secure passwords of varying lengths and complexity** to enhance online security for users.

**Currency Converter** 🔗 | HTML, CSS, Javascript, React

02 2024

- Developed a dynamic currency converter web application using HTML, CSS, JavaScript, and React. The application allows users to **convert currencies between different countries in real-time**, providing accurate exchange rates sourced from a reliable API.

**Netflix Clone** 🔗 | HTML, CSS

06 2023

- Developed a Netflix clone, a responsive web application replicating the user interface of the popular streaming platform using HTML and CSS. The project aimed to showcase a variety of **front-end development skills, including layout design, styling, and responsive web design principles.**

## INTERNSHIP

**IBM** 🔗

11 2023 – 11 2023

*INTERN*

New Delhi, India

- As a Data Analyst intern at IBM, I contributed to various projects aimed at leveraging data insights to drive business decisions and optimize operational processes. **I collaborated with cross-functional teams to extract, analyze, and interpret data from diverse sources, providing valuable insights and recommendations to enhance organizational performance.**

**IBM** 🔗

06 2023 – 07 2023

*INTERN*

New Delhi, India

- Contributed to data analysis projects during an internship with IBM, gaining hands-on experience in leveraging data to drive business insights and decision-making processes. **Collaborated with multidisciplinary teams to extract, clean, and analyze large datasets from diverse sources, ensuring data integrity and accuracy. Utilized advanced analytical tools and techniques to identify trends, patterns, and correlations within the data, facilitating evidence-based decision-making.**

## TECHNICAL SKILLS

**Languages:** Python, Java, C, C++, JavaScript

**Developer Tools:** VS Code, IntelliJ Idea

**Technologies/Frameworks:** GitHub, ReactJS, NextJS, NodeJS, ExpressJS, Git, Mongo

## CERTIFICATIONS

- Introduction to C - Swayam
- Python - Udemy
- 5 Stars in C++ 🔗
- Java
- SQL
- Fundamentals of Computer System-Swayam
- Software Engineering-Swayam
